payment.**

Incentive Payment Applicant

Name: _____
Social Security # or: _____ Federal Tax Identification #: _____
Address: _____
Contact Person: _____ Telephone No.: _____

Litter Broker ☐ Poultry Litter End-User ☐

Attach a completed W-9 tax form and a current Nutrient Management Plan for the fields which will receive poultry litter.

Acreage for Application: _____ Tons of litter to be applied: _____

- Up to 500 tons of litter may be eligible per end-user, per incentive request. Subsequent requests may be submitted after payment of the previous request has been made.
- Fields scheduled to receive poultry litter transported through this program must be included in a Nutrient Management Plan (NMP), prepared by a Virginia Certified Nutrient Management Planner. Litter must be applied as specified in the nutrient management plan.
- Fields scheduled to receive poultry litter transported through this program must have a Virginia Tech soil test phosphorus fertility rating of M+ or lower. See Field Application Record for correlation of other soil testing laboratories.
- The receiving operation agrees to fully implement their Nutrient Management Plan.
- Virginia DCR and the Virginia Poultry Federation assume no liability regarding quality of poultry litter transported and applied under this program.
- NO mortality (composted or otherwise) will be shipped as part of this incentive program. Litter containing mortality in any form will NOT qualify for payment.
- Poultry litter must originate on farms in Page or Rockingham counties.
- To receive an incentive payment through this program, litter must not be transported to a final destination within Accomack, Augusta, Northampton, Page, Rockingham, or Shenandoah counties.
- Completed Poultry Litter Transport Incentive Request Forms are valid for a period of 12 months. If litter applications are not made within 12 months of the request, a new form must be submitted.
- The receiving farm must provide a safe off-loading site that does not pose an undue risk to water quality. These sites must be identified in the NMP.
- The receiving farm must store litter in accordance with the buffer requirements identified in the NMP "Special Conditions", and cover the litter if stored more than 14 days. These sites must be identified in the NMP.
